JANUARY 1962 – DECEMBER 1962

LANCET PUBLICATIONS, INCORPORATED

MINNEAPOLIS, MINNESOTA

SUBJECT INDEX

A

Acetylcholine, epileptiform electrical response of cerebral cortex to, 551

Achondroplastic dwarfs, compressive spinal cord and root syndromes in, 202

Alzheimer's disease, pathologic and enzymatic-histochemical observations, 213

American academy of neurology fourteenth annual meeting
- abstracts of papers, 295
- program, 223

Amyloid polyneuropathy, clinical manifestations and diagnosis, 413

Aneurysm,
- dissecting, in neck and head, 867

Angiography, carotid, diagnosis of thrombosis of longitudinal sinus, 288

Angiomas and myelomalacia, 795

Anticonvulsant drug, sulthiame, clinical evaluation of, 923

Artery
- arteriographic study of arteriosclerotic cerebrovascular lesions, 698
- brachial-basilar insufficiency syndrome, 810
- carotid and vertebral, diseases of, 848
- carotid sinus hypersensitivity, cerebral form of, 492
- dissecting aneurysms in head and neck, 867
- internal carotid, agenesis of, 588
- internal carotid occlusion, variations of collateral circulation in, 467

Ataxia
- cerebellar, Marinesco-Sjögren syndrome, 836
- hereditary spastic, with central retinal degeneration and vestibular impairment, 124

B

Ballistocardiogram, comparison with normal tremor, 178

Blood, intravascular agglutination after injection of radiopaque contrast media, 560

Brain

cerebral atrophy, diffuse, and highest integrative functions, 385

cerebral cortex, epileptiform electrical response to acetylcholine, 551

cerebral deconnection syndrome, 675

cerebral form of carotid sinus hypersensitivity, 492

cerebral hemisphere, right, visual-spatial neglect in lesions of, 23

cerebral infarction, anticoagulant therapy, 823

cerebral reaction to sodium fluorescein during profound hypothermia, 193

cerebral siderosis, subpial, 108

cooling, direct extravascular, in normothermic animal, 882

craniopharyngioma, Chiari-Frommel syndrome associated with, 583

decerebration and decortication, effects on shivering in cat, 99

glioma, brain stem, paroxysmal skew deviation with, 520

hemorrhage, intracerebral and subarachnoid, in hemophilic infant, 293

hemorrhage, intracranial, due to metastatic chorionepithelioma, 771

hemorrhage, intracranial, medical treatment with hypotensive drugs, 36

hypernatremia, neurogenic hyperosmolarity, 453

hypertension, intracranial, and mastoiditis, 472

lesions, destructive mid-brain, experimental hyperphagia following, 394

pyramidal tract, representation in internal capsule and basis pedunculi, 337

reflexes, brain stem, physiologic and clinical investigations, 320

subdural effusions in an infant, 79

substance in children, evolution of roentgenographic changes with unilateral loss of, 133

tumors, intracranial, electroencephalogram in children with, 329

C

Cancer, brain, *see* Tumors

Carotid system, electromagnetic studies on blood flow through, 20

Caudate deficit, physiologic effects in adult albino rat, 529

Cerebrospinal fluid, factors affecting lactic dehydrogenase and glutamic oxalacetic transaminase activities in, 53

Ceruloplasmin, oxidase assay for low concentrations of, 460

Charcot-Marie-Tooth disease with associated myopathy, 629

Chiari-Frommel syndrome associated with a craniopharyngioma, 583

Cholinesterase studies of neurologic mutants in mice, 423

Chorea, idiopathic hypoparathyroidism presenting as, 485

Chorionepithelioma, metastatic, intracranial hemorrhage from, 771

Convulsive disorders, infantile spasms, 351

Copper metabolism, abnormal, associated with schistosoma infection, 540

Creutzfeldt-Jakob syndrome, associated with amyotrophic lateral sclerosis, 603

D

Dementia, progressive, associated with amyotrophic lateral sclerosis, 603

Diabetes mellitus, recurrent cranial nerve palsies in, 180

DL-penicillamine for treatment of Wilson's disease, 231

Dyskinesias, electrophysiologic investigations, 754

Dyslexia and its associated disturbances, 477

E

Ear, vestibular impairment, hereditary spastic ataxia with, 124

Electroencephalogram
- focal abnormalities in "wrong" location, 611
- following Western and St. Louis encephalitis, 311
- for study of acute head injury in children, 273
- in children with intracranial tumors and seizures, 329

Electrolyte
- balance, hypernatremia, 453
- disturbances, iatrogenic, with neurologic manifestations, 571

Electromyography, reciprocal innervation in blinking, 371

Electron microscope in diagnosis of diffuse sclerosis, 896

Electronystagmographic technic for examination of vestibular function, 686

Embolism, cerebral air, seat of respiratory and cardiovascular responses to, 140

Encephalitis
- St. Louis, electroencephalogram following, 311
- Western, electroencephalogram following, 311

Encephalopathy
- infantile subacute necrotizing, 624
- in Whipple's disease, 65

Epilepsy
- epilepsia arithmetices, new psychologic trigger mechanism in, 282
- post-traumatic, 665

Epileptiform electrical response of cerebral cortex to acetylcholine, 551

Esophageal motility, disturbances of, in multiple sclerosis, 250

Eye
- cataracts, congenital, Marinesco-Sjögren syndrome, 836
- central retinal degeneration, hereditary spastic ataxia with, 124
- dyslexia and associated disturbances, 477
- electromyographic study of reciprocal innervation in blinking, 371
- electronystagmographic technic for examination of vestibular function, 686
- vertical optokinetic nystagmus, 48
- vertical optokinetic nystagmus, normal response, 245
- visual disorientation in homonymous half-fields, 257
- visual-spatial neglect in lesions of right cerebral hemisphere, 23

H

Hand, methods for examining sensibility in, 8

Head, acute injury in children, electroencephalographic study of, 273

Headache
- classification of, 378
- migraine made severe by some other disease, 427

Hemoglobin, abnormal, as cause of neurologic disease, 114

Hemophilia, as cause of spontaneous extradural hemorrhage, 501

Hemorrhage
- intracerebral and subarachnoid, successful management in hemophilic infant, 293

intracranial, from metastatic chorionepithelioma, 771

spontaneous intracranial, medical treatment with hypotensive drugs, 36

spontaneous spinal extradural, due to hemophilia, 501

Herpes simplex, antibody responses in patients with Bell's palsy, 34

Histoplasmosis of central nervous system in a Puerto Rican, 148

Hyperkinesia from caudate deficit in adult albino rat, 529

Hyperphagia, experimental, in cats following destructive mid-brain lesions, 394

Hypertension, benign intracranial, associated with mastoiditis and lateral sinus obstruction, 472

Hypokalemia, iatrogenically induced, 571

Hyponatremia, iatrogenically induced, 571

Hypoparathyroidism, idiopathic, presenting as chorea, 485

Hypothermia, profound, cerebral reaction to sodium fluorescein during, 193

I

Infants, newborn, neurologic status on first and third day of life, 72

Infarction, bilateral, of pyramidal tracts in man, 637

Integrative functions, highest, and diffuse cerebral atrophy, 385

K

Kayser-Fleischer corneal ring associated with schistosoma infection, 540

L

Leukoencephalopathy, progressive multifocal, 434

Liver
hepatolenticular degeneration, treatment with DL-penicillamine, 231
schistosoma infection, 540

LSD-25, effects on temporal lobe EEG patterns and learned behavior in the cat, 591

Lymphoma
malignant, with diffuse involvement of peripheral nervous system, 186
with central nervous system involvement, 495

M

Macroglobulinemia, Waldenström's, polyneuropathy in, 617

Maple syrup disease, mechanism of central nervous system damage in, 860

Marinesco-Sjögren syndrome, 836

Mastoiditis, benign intracranial hypertension in, 472

Meningitis, Mollaret's, differential diagnosis, 745

Metabolism, oxidase assay for ceruloplasmin in serum, 460

Migraine *see* Headache

Mollaret's meningitis, 745

Motor nerve conduction velocity measurement as diagnostic tool, 733

Muscle
dystrophic human, evidence of regeneration in repeat biopsies of, 381
late distal myopathy, 547
relaxant in spasticity, 343
skeletal, sarcoidosis of, 643

Myelomalacia, angiomas and, 795

Myopathy
associated with Charcot-Marie-Tooth disease, 629
late distal, 547

N

Nervous system
behavioral and pathologic correlates of motor impersistence, 876
damage in maple syrup disease and phenylketonuria, mechanism of, 860

diffuse involvement in papulosis atrophicans maligna, 503

involvement, lymphoma with, 495

motor nerve conduction velocity measurement as diagnostic tool, 733

neuralgia, postherpetic, 725

peripheral, malignant lymphoma with diffuse involvement of, 186

progressive multifocal leukoencephalopathy, 434

Neuralgia, postherpetic, 725

Neurogenic hyperosmolarity, hypernatremia, 453

Neurologic disease

abnormal hemoglobin as cause of, 114

abnormalities in neonatal period, prognostic implications of, 910

Neurologic status of newborn infants on first and third day of life, 72

Neuropathy, hypertrophic, of Déjerine and Sottas, 712

Neuroradiology, reliability of, 93

Neuroses, neurologic theory of, 657

Nystagmus, vertical optokinetic, 48, 245

O

Ophthalmodynamometry, criteria for normal and abnormal readings, 153

P

Pain

intractable, due to protruded intervertebral disk and intraspinal neoplasm, 60

perception in monkey, behavioral method for study of, 264

Palsy

Bell's, antibody responses in patients with Bell's palsy to varicella-zoster and herpes simplex in patients with, 34

cranial nerve, in diabetes mellitus, 180

Papulosis atrophicans maligna, diffuse central nervous system involvement in, 503

Paralysis

paraplegia, prolonged flaccid, recovery after, 510

sporadic and familial periodic, metabolic studies of, 208

Parkinson's disease

electrophysiologic investigations, 754

investigation of, 402

reflex re-enforcement, 440

Phenylketonuria, mechanism of central nervous system damage, 860

Pituitary gland, chromophobe adenoma of, 577

Polyneuropathy in Waldenström's macroglobulinemia, 617

Psilocin, effects on the temporal lobe EEG patterns and learned behavior in the cat, 591

Psilocybin, effects on temporal lobe EEG patterns and learned behavior in the cat, 591

Pyramidal tracts, bilateral infarction in man, 637

R

Radiography, plain, of cervical spine in chronic myelopathy, 513

Radiology, agglutination of blood following injection of radiopaque contrast media, 560

Reflexes, brain stem, physiologic and clinical, 320

S

Sarcoidosis of skeletal muscle, 643

Schistosoma infection, associated with abnormal copper metabolism and Kayser-Fleischer ring with, 540

Sclerosis

amyotrophic lateral, hereditary, 1

amyotrophic lateral, representation of pyramidal tract in internal capsule and basis pedunculi, 337

amyotrophic lateral, with progressive dementia, 603

diffuse, electron microscopic and histochemical studies, 896

multiple, disturbances of swallowing and esophageal motility in patients with, 250

multiple, frequency and distribution in Washington, D. C., 445

multiple, microbiology in, 915

Skull changes, evaluation with unilateral loss of brain substance, 133

Spasms, infantile, 351

Spasticity, muscle relaxant in, 343

Spinal cord
root syndromes, compressive, in achondroplastic dwarfs, 202
cervical, plain radiography in chronic myelopathy, 513
spontaneous extradural hemorrhage due to hemophilia, 501

Spinal vascular malformations and myelomalacia, 795

Spondylosis, cervical, in patients with athetosis, 410

Swallowing, disturbances of, in multiple sclerosis, 250

T

Test
for hand function, 10
for serum oxidase activity, 460

Thrombosis of longitudinal sinus, diagnosis by carotid angiography, 288

Tremor
normal, nature of, 159
physiologic, 361

Tumors
brain stem glioma, paroxysmal skew deviation with, 520
craniopharyngioma, Chiari-Frommel syndrome associated with, 583
intracranial, electroencephalogram in children with, 329
intracranial, multiple primary, 524
intractable pain due to protruded intervertebral disk, and intraspinal neoplasm, 60
lymphoma with central nervous system involvement, 495
pituitary, chromophobe adenoma of, 577

V

Varicella-zoster, antibody responses in patients with Bell's palsy, 34

W

Whipple's disease, encephalopathy in, 65

Wilson's disease, treatment with DL-penicillamine, 231
